

Greater Charleston Central Labor Council - Charleston, SC

29 Nov 2009

To All Labor Councils and Union Locals,

Earlier this month we hosted Gary Anderson's "Clarence Darrow's Unions & Justice" program in Charleston SC - and I want to recommend it to everyone in the labor movement.

I found both Gary's performance and the material - **riveting**. It was like actually sitting with Clarence Darrow and listening to him discuss the cases and how they affected him and those involved. The look back at how unions were demonized while they fought for the rights of workers - gave me the ability to compare things to today - and showed me how much work we still must do.

At Charleston we had a public event, and it gave us a great opportunity to connect with folks in the community outside the labor movement. The wide range of areas that Clarence Darrow was involved in - made the show of interest to a whole host of groups - labor, educational, political, and religious.

In discussions with Gary about labor and Clarence Darrow - I found Mr. Anderson to be what I call "A National Labor Treasure".

So, if you have the chance to see Gary's show or bring it to your area - do it.

In Solidarity,

Clayton Seufert, Treasurer-Secretary
